

**Whitman-Hanson Regional School District
District Operations Department**

**ANNUAL ASBESTOS NOTIFICATION LETTER
For School Year 2019-2020**

August 2, 2019

Re: Annual Notification of AHERA Management Plan

Dear Parents, Teachers, Employee Organizations, Building Occupants and Legal Guardians of Children:

In accordance with the Asbestos Hazard Emergency Response Act (AHERA) regulations concerning notification of plan availability, please be advised that copies of our District's Asbestos Management Plans are available online at www.whrsd.org under Central Administration tab -> District Departments -> Facilities and select Facilities Documents. Plans are also available in our District Central Office during normal operating hours.

The management plans are site-specific guidance documents that the District must follow in managing the asbestos-containing building materials (ACBM) present in some of the district schools. The plan is updated to keep it current with on-going operations and maintenance, periodic inspections and response action activities. In compliance with 40 CFR, 763, subpart E to Appendix C, Asbestos Hazard Emergency Response Act (AHERA),

Any inquiries regarding the management of asbestos containing materials in our schools should be directed to our district's AHERA Designated Person, Ernest Sandland, Director of Facilities, who can be reached at Whitman Hanson Regional High School by e-mail at ernest.sandland@whrsd.org and via telephone at 781-618-7435.

Ernest Sandland
Director of Facilities
