Bring Your Own Device [BYOD] Opt-Out
WHRSD 1:1 Chromebook Program

Parents may opt-out of the district's 1:1 Chromebook Program as long as the student brings a reliable laptop or Chromebook to school every day that allows the student to complete classroom activities, school work, and tests without disruptions. This form should be returned to the student's school office as soon as possible. Please read the following information carefully.

It is agreed and understood that:

- Students not accepting a Whitman Hanson Regional School District initiative are responsible for bringing their own working Chromebook or laptop and charger, to school, every day in order to participate in classroom activities; and complete class assignments.

- Tablet devices (iPads, Kindle Fires, etc.), smartphones, and gaming systems are not effective devices as they are not compatible with our current online learning platforms.

- Assignments or tests will not be modified to accommodate issues with personally owned devices.

- The district will not provide technical support for personal devices.

- Students may request to enter the 1:1 Chromebook program at any time by completing the necessary paperwork. Parents/students should contact their building principal.

- Students are expected to follow all school guidelines and policies when operating their devices at school and/or using school resources.

- The district does not accept any liability for personal devices used at school. It is the student's responsibility to properly care for and store the device while at school. I certify that I have read the above information and will be providing my child with their own personal device for use at school.

I understand the rules stated above and agree to follow them.

☐ I am opting out of a school-issued Chromebook this year and will use my own personal device. I understand that I am responsible for having my device in school each day.
